JUAN CARLOS MEDINA - Sr. Marketing Manager

Email: jmedina@dow.com

PLANT LOCATIONS:

Global Plant Network

PRODUCTS:

Dow, Inc. offers a number of flow assurance solutions and protection for pipe lines and subsea architecture:

HYPERLAST™ Syntactic DW512E

Water depth capability up to 3,000 metres (10,000 ft.).

K factors in the range of 0.145 – 0.165 W/m²K.

Temperature performance to 115°C (239°F).

Moldable and rotationally castable version available.

HYPERLAST™ PUF

Polyurethane rigid foam systems are available in a range of compressive strengths with various degrees of open/closed cell content.

Temperature performance to 146°C (295°F).

K factors as low as 0.023 W/m²K.

HYPERLAST™ FJ

Field Jointing – The fast curing times of HYPERLAST jointing polyurethanes help to enable rapid cure times as fast as 5 minutes.

PRIMERS 9295 & 9297

Designed to promote the bond between GSPU – GSPU in difficult environmental conditions.

CUSTOM COATING

To complement the parent coat and field jointing insulation systems for manifolds, risers, jumpers, spool pieces, xmas trees and related subsea architecture.

DUN TRANSPORTATION & STRINGING, INC.

Web Address: <http://www.duntransportation.com>

JIMMY MONTGOMERY - Owner & CEO

Jimmy@mtilogistics.com

JASON HUNT - President

Jason@mtilogistics.com

JUDY WALTON - Project Manager, Special Projects

Judy@mtilogistics.com

PRODUCTS:

Montgomery Trucking strings hundreds of miles of large diameter pipeline projects per year for various pipeline companies and or contractors. Additional services include unloading and stockpiling for pipeline companies and steel mills at remote storage areas before the pipeline construction begins. Montgomery Trucking also performs hauling and stringing for most of the pipe suppliers nationally. This segment of the business is primarily small diameter pipeline projects and is generally conducted out of the coating plants to small gathering and distribution sites.

The core business for Montgomery Trucking consists of loading, unloading, hauling and stringing pipe in 60' and 80' lengths. Montgomery Trucking has a fleet of steerable pole trailers that enable the long loads to be transported into storage yards and pipeline right of ways around the country. The specialized hauling is performed by a group of very experienced drivers. Almost all the drivers that work full time for the company have more than 10 years experience and the larger percentage have tenure exceeding 20 years.

BILL SOLOMON - President

RANDY HAYES - Sales and Marketing Manager (randyh@vacuworx.com)

RAY PLANK - Purchasing Manager

PLANT LOCATIONS:

Tulsa, Oklahoma - USA

PRODUCTS:

Vacuworx Global is the leader in manufacturing in-field vacuum lifting equipment. Vacuworx manufactures, sells, leases, rents, and services vacuum lifting systems for the energy, construction, infrastructure, and utility industries. Vacuworx Lifting Systems handle all forms of pipe, plate, and slabs including steel, plastic, concrete and cast-iron pipe, steel plate, steel piling, pre-cast slabs, and concrete road barriers.

The Vacuworx Advantage is based on three key elements: unique product design, top-quality fabrication, and 24-hour sales and service 365 days a year. Our lifters improve safety, reduce the number of ground personnel needed, lower payroll and insurance costs, and increase productivity by 7 to 12 times.

Vacuworx Global is privately held as Vaculift, Inc. and operates out of its main headquarters in Tulsa, Oklahoma, USA. The Vacuworx System has an excellent reputation around the world and is regarded as one of the best new innovations in the oil and gas industry in the past 20 years. For more information, contact Vacuworx at 1-918-259-3050 or visit our website at www.vacuworx.com for complete product details and video demonstrations.
